

About us

Lesnina Inzenering Panels is part of Lesnina Inzenering Holding, the biggest Macedonian producer and dealer of wood and construction products, including: design and construction of engineering projects, wholesale and retail trading of construction materials, production and trade of furniture, production of beech wood panels and other wood product.

Established in 2004, Lesnina Inzenering Panels is the biggest company in Macedonia for production of edge glued panels with discontinuous stave. Lesnina Inzenering Panels resulted from years of development and research within the Lesnina Inzenering Holding team of experts. Our intention is to provide our customers high-quality products and services, in accordance with their requirements and the highest environmental standards, at a competitive price.

Following the contemporary trends in global wood production and the more profound needs of the individual customer, we plan on expanding and increasing our product portfolio. The vision of Lesnina Inzenering Holding is to become the largest wood center in the region – Balkan Wood Center (BWC), with the largest production capacity of beech and other wood panels, log houses, EPAL pallets, design furniture, briquettes and pellets.
